Subject	Film Studies	Year group	KS4
Vision statement:	<p>At Landau Forte our curriculum exists to ensure all students regardless of background and ability have the opportunity to unlock their potential. We are committed to students being challenged from their previous key stage learning experiences. Our broad and balanced curriculum is ambitious, coherently planned and sequenced, and will provide the platform for preparing students with the foundations for examination success.</p> <p>Our Curriculum Intent has been informed by a wide variety of researchers and is steeped in evidence based research. Christine Counsell summarises the aspiration of our curriculum to empower all learners creating a pathway to success in university, their career and life:</p> <p>‘A curriculum exists to change the pupil, to give the pupil new power. One acid test for a curriculum is whether it enables even lower attaining or disadvantaged pupils to clamber into the discourse and practices of educated people, so that they gain powers of the powerful.’</p> <p>As well as excellent academic success we aim to ensure our students leave us as polite and well-rounded young adults. Our new core values of Compassion, Courage and Curiosity are currently being embedded throughout our curriculum offer to ensure we continue to meet our social, emotional, spiritual and moral obligations.</p>		
Curriculum intent:	<p>Our vision for the Media Curriculum at Landau Forte is to prepare learners for the society we envision for tomorrow, to enable learners to become curious, intelligent consumers of the mass media. We aim to foster an understanding of the media’s power to influence, shape and define our concepts of identity, reality and social values. We want learners to be courageous in challenging aspects of media and take responsibility for their media consumption habits and help them understand the effects of their choices. We want our learners to use compassion to view aspects of media in the lens of others. Lastly, we aim to empower and inspire learners to express themselves through construction of creative, original and thought-provoking media products.</p>

Key/Historical misconceptions in this unit:	Confusion about terms – low and high key lighting and non-diegetic and diegetic sound	Confusion about what constitutes an angle/shot/movement. Lack of why in analysis (director’s intent)	Either too focused on analysis of key elements or on context (not both together)	Lack of why in analysis (director’s intent)	Lack of why in analysis (director’s intent) in evaluation. Lack of proper terminology in shooting script and linking properly to screenplay. Lack of action and character development in screenplays. Often over word count.
Sequencing:	We have chosen to sequence the year 10 curriculum like this because we feel that the skills build. We begin with introducing the key elements and then we implement them into each topic starting with lighting and camerawork which is the most straightforward topic building in challenge to context and then ending with our most difficult concept – representation. We leave our NEA to the end of the year to allow students to have developed the needed understanding of each key concept in order to be able to demonstrate this knowledge in a practical way.				
Values	Curiosity: Exploration of media texts provided by exam board Compassion: Learning about different groups of people globally. Courage: problem solving through analysis

National Curriculum plus:

In addition to teaching the statutory elements of the national curriculum, we also include teaching of multiple horror films across genres.

We encourage participation in the lighting/sound of our school production – we also watch the production and evaluate the mise-en-scene, lighting and sound choices.

We provide a film club encouraging students to watch and critique an array of films from various genres.

We encourage students to attend online seminars regarding courses and jobs in film industry.

We are also exploring trips to studios (if COVID restrictions allow).
