Curriculum overview

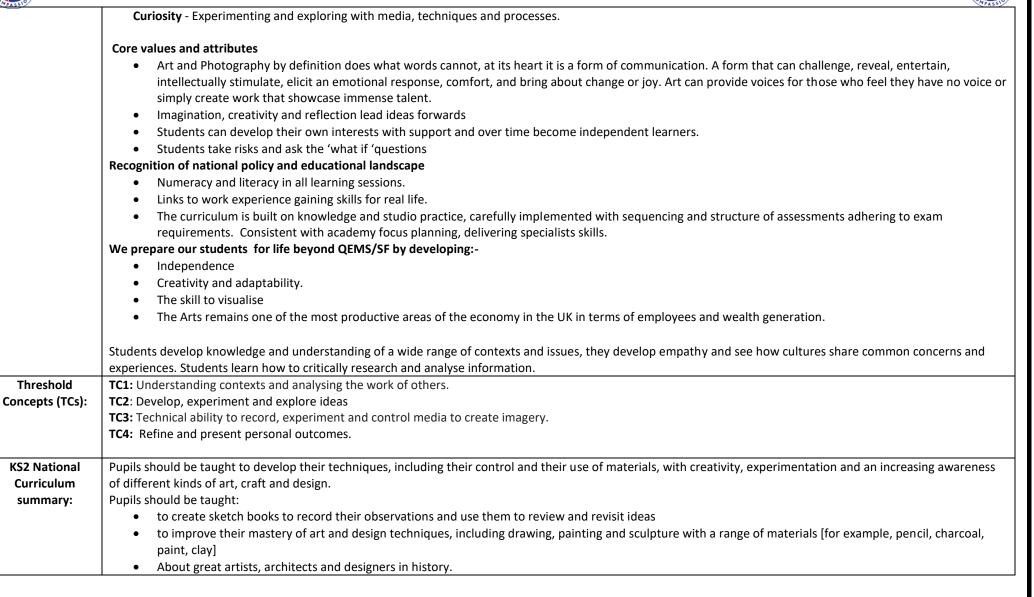

Subject	Art	Year group	9				
Vision statement:	At Landau Forte our curriculum exists to ensure all students regardless of background and ability have the opportunity to unlock their potential. We are committed to students being challenged from their previous key stage learning experiences. Our broad and balanced curriculum is ambitious, coherently planned and sequenced, and will provide the platform for preparing students with the foundations for examination success.						
	Our Curriculum Intent has been informed by a wide variety of researchers and is steeped in evidence based research. Christine Counsell summarises the aspiration our curriculum to empower all learners creating a pathway to success in university, their career and life:						
	'A curriculum exists to change the pupil, to give the pupil new power. One acid test for a curriculum is whether it enables even lower attaining or disadvantaged pupi to clamber into the discourse and practices of educated people, so that they gain powers of the powerful.'						
	As well as excellent academic success we aim to ensure our students leave us as polite and well-rounded young adults. Our new core values of Compassion, Courage and Curiosity are currently being embedded throughout our curriculum offer to ensure we continue to meet our social, emotional, spiritual and moral obligations.						
Curriculum intent:	The Art and Photography curriculum at Landau Forte develops students' imagination, e	enquiry, creativity and self-reflection.					
	We provide the students with creative experiences that cover a broad variety of topics, ensuring that the students build upon prior knowledge. Students study a range of artists, genres and cultures to broaden their understanding of art and the wider world. By ensuring students are taught technical skills and learn from the work of others we develop active learners, who are inquisitive and a firm grounding of technical skill and understand how to research, analyse and synthesise concepts and approaches to find personal outcomes.						
	The topics are designed to provide cross-curricular links to other subjects across the sc wider world of work within this. We have devised our curriculum whilst considering the						
	In Art, students explore and learn how to apply a range of skills and techniques using a variety of media, whilst at the same time, teaching them to take pride in their work and complete tasks to the very best of their ability. Our students are critical thinkers and problem solvers, developing projects from conception to realisation. We promote individuality, creativity and independence, which prepares them for GCSE and A level and beyond.						
	The course is designed in a cyclical nature from KS3 to KS5 allowing for key skills to be developed and refined over time. The four threshold concepts that underpin the learning are derived from the KS4 Assessment objectives, but also form the basis for all creative process outside of education. The 3 C's are at the heart of creative practice.						
	Courage – taking creative risks and learning from mistakes, trying new techniques Compassion – Learning about others and world/ societal issues explored in Art, su		etc

Key/Historical misconceptions in this unit:	Street art art or vandalism?	Abstract art isn't real art because it doesn't look like anything.	I can't draw faces	<u><u><u></u></u><u></u><u></u><u></u><u></u><u></u><u></u><u></u><u></u><u></u><u></u><u></u><u></u><u></u><u></u><u></u><u></u><u></u></u>		
Sequencing:	We have chosen to sequence the year 9 curriculum like this because Spiral curriculum, revisiting the 4 TCs but adding in more complexity and challenge. This year students begin to explore have greater independence and choice. This is to enable students to gain insight into the more individual/independent work they would undertake in GCSE Art & Design/Photography. The issues raised in Street art, from Keith Haring and the Aids crisis to the complexity of abstraction conceptually and through to the technical precision required for portraiture represent new challenges that require deeper thinking.					
Values	This scheme of work promotes the school values of Compassion, Curiosity and Courage by: Compassion – working as a team (to handle resources, tidying away etc) Understanding the contexts in which different artists work (New York in the 80s etc) Curiosity – Learning new skills and techniques, learning about previously unknown/little known artists. Courage – Taking creative risks, answering questions when unsure of the answer etc					
National Curriculum plus:	In addition to teaching the statutory of	elements of the national curriculum, we also include(with	justification to local context)
