## 1) Academy Philosophy

Landau Forte Academy QEMS and Sixth Form is committed to the principle that every student has individual needs and entitlement to the full curriculum. Landau Forte Academy QEMS and Sixth Form has adopted a whole Academy approach to early identification, assessment and provision for students with individual needs. Appropriate differentiation of the curriculum will be planned by all tutorial staff working alongside the SEND team utilising a range of strategies, resources and approaches. The Board of Governors recognises the need for appropriate resources including staff and accommodation for students with Special Educational Needs and Disability. Landau Forte Academy QEMS and Sixth Form is committed to the equality of opportunity and the provision of the highest standards of education for all our students, including those with Special Educational Needs and Disabilities.

We currently provide for the following:

- Communication and interaction (C/I)
- Cognition and learning (C/L)
- Social, emotional and mental health difficulties (SEMH)
- Sensory and/or physical needs

## (2) Definition of Special Educational Needs

A child or young person has SEND/SENDCO if they have a learning difficulty or disability which calls for special educational provision to be made for him/her. A child of compulsory school age or a young person has a learning difficulty or disability if he/she:

- a) has a significantly greater difficulty in learning than the majority of students of the same age, or
- b) has a disability which either prevents or hinders him or her from making use of the facilities provided for others of the same age in mainstream schools (DfE & DfH SEND code of practice 2014 p15-16)

The 2014 SEND Code of Practice outlines the following areas of SEND that should be considered:

- **Communicating and interaction** – for example, where children and young people have speech, language and communication difficulties which make it difficult for them to make sense of language or to understand how to communicate effectively and appropriately with others.
- **Cognition and learning** – for example, where children and young people learn at a slower pace than others their age, have difficulty in understanding parts of the curriculum, have difficulties with organisation and memory skills, or have a specific difficulty affecting one particular part of their learning performance such as in literacy or numeracy.
- **Social, emotional and mental health difficulties** – for example, where children and young people have difficulty in managing their relationships with other people, are withdrawn, or if they behave in ways that may hinder their and other children's learning, or that have an impact on their health and wellbeing.
- **Sensory and/or physical needs** – for example, children and young people with visual and/or hearing impairments, or a physical need that means they must have additional ongoing support and equipment. Some children and young people may have SEN that covers more than one of these areas.
- **Disability** Many children and young people who have SEN may also have a disability. A disability is described in law (the Equality Act 2010) as 'a physical or mental

impairment which has a long-term (a year or more) and substantial adverse effect on their ability to carry out normal day-to-day activities.' This includes, for example, sensory impairments such as those that affect sight and hearing, and long-term health conditions such as asthma, diabetes or epilepsy.

When more specialist assessment is required the Academy will work collaboratively and co-operatively with external specialist professionals.

## **(6) Identification of SEND**

Policy Number: LFTSFQ/0003

Date of Issue: September 2024

## 6.1 Landau Forte QEMS

The policy of the Academy follows the graduated response to meeting the needs of students with SEND as outlined in the 2014 SEND Code of Practice; 0-25 years. Relevant information from the feeder primary schools is collated prior to the student's entry into Year 7. Appropriate group and individual diagnostic testing is used when required. At the beginning of each academic year the SEND/SENDSCO creates a register of SEND students. It is reviewed every term in light of the outcomes of interventions that have taken place during the term.

All staff have a responsibility for identifying and meeting the needs of students with SEND and for exploring any unmet learning needs which may be having an effect on a student's behaviour. Staff should seek to identify students making less than expected progress given their age and individual circumstances. This can be characterised by progress which:

- Is significantly slower than that of their peers starting from the same baseline
- Fails to match or better the child's previous rate of progress
- Fails to close the attainment gap between the child and their peers
- Widens the attainment gap

(DfE & DfH SEND code of practice 2014 6.17, p95)

All teachers, in every curriculum area, are responsible for making their curricula accessible to all students, including those with SEND (current and prospective) and for engaging students with SEND by deploying appropriate strategies from a wide variety of teaching styles. Therefore, all curricular and teaching effectively provides subject matter appropriate for the age and aptitudes of students, including those with an Education, Health and Care Plan (EHCP).

## 6.2 Tamworth Sixth Form

The Academy policy on identification, assessment, monitoring and review procedures is in line with the proposals of the Code of Practice.

All relevant information from the feeder secondary schools is collated prior to the student's entry into Year 12. Appropriate group and individual diagnostic testing is used when required.

## (7) Education, Health and Care Plans (EHCPs)

Education provision for students with Educational and Health Care Plans will be appropriate to ensuring the outcomes stated are met. In terms of welfare, students are allocated a key worker which they meet with on a regular basis, as appropriate or required. They have access to student support and therapeutic support from outside agencies.

Educational and Health Care Plans will be reviewed annually with Parent/Carer/ Students and any professionals working with the student. In line with the new code of practice these reviews will use the person centered approach, with the students taking a lead in the meeting.

## (8) Request for an Education, Health & Care Assessment

Where a request for an Education, Health and Care Plan is made by the school to an LA, the student will have demonstrated significant cause for concern. The LA will need information about the student's progress over time, and will also need documentation in

relation to the student's 'needs' and any action taken to meet with those needs, including any resources or special arrangements put in place. Parents/Carers can also make a request for an Education, Health and Care Assessment directly to the LA through the local offer to be found at [www.staffordshireconnects.info](http://www.staffordshireconnects.info)

## (9) Provision

The individual needs of students with SEND are met through quality first teaching (wave 1), targeted intervention (wave 2) and, when required, specialised assessment and support (wave 3). All students with SEND will have their pupil passport own which will include:

- General information about the specific learning difficulty and/or disability
- Desired outcomes
- The teaching strategies to be used
- The provision to be put in place
- When the plan is to be reviewed

The delivery of interventions/strategies recorded on the student's pupil passport will be the responsibility of the class teacher, with the support of the SEND team.

The individual needs of students are met through a structured learning support system and on an individual/ small group basis entitling students to a fully inclusive education where appropriate.
